

# Abu Sufian

## Senior Software Engineer

having 9 years of experience

### SUMMARY

Senior Software Engineer with 9+ years of experience designing and building scalable enterprise applications using .NET, JavaScript, and cloud technologies. Proven expertise in system architecture, performance optimization, and full software development lifecycle delivery. Strong background in microservices, DevOps practices, and database design, with experience delivering high-quality solutions for international clients.

### WORK EXPERIENCE

#### SELISE Digital Platforms

##### Lead Software Engineer

Dhaka, Bangladesh | March 2023 – April 2026

- Acted as Technical Lead, driving architectural decisions, defining project structure, and guiding the development of field service management and customer portal applications for the Swiss company Service7000.
- Led and mentored a team of engineers, ensuring code quality, best practices, and timely delivery of features.
- Developed the Task Management module for a Risk & Quality Management application, enhancing task tracking, assignment, and monitoring capabilities.
- Collaborated with stakeholders and cross-functional teams to translate business requirements into scalable technical solutions.
- Contributed to building the installer for the Amberg RMS (Rail Monitoring System) using Advanced Installer, ensuring a reliable and user-friendly deployment experience.

*Project: Amberg RMS, RiQS (<https://www.riqs.ch/>), Tenant Portal (<https://service7000.ch/>)*

#### hSenid Business Solutions

##### Senior Software Engineer

Dhaka, Bangladesh | August 2022 – February 2023

- Designed and implemented a new architecture while revamping the Job Scheduler module of PeoplesHR (HR ERP), ensuring reliable execution of background jobs with zero failure scenarios.
- Developed a reusable npm package in JavaScript to enable interactive application tours, enhancing user onboarding and experience.

*Project: PeoplesHR (<https://peopleshr.com>)*

### SKILLS

#### LANGUAGES

C#, Java, Python  
JavaScript, TypeScript

#### FRAMEWORKS

ASP.NET Core  
Node.js, Angular  
React, Vue

#### DATABASES

MS SQL Server  
MySQL, PostgreSQL  
MongoDB

#### OTHERS SKILLS

AWS, Azure DevOps, Micro Service, Docker, RabbitMQ, CQRS, OData, Design Patterns, Identity Server 4, WebSocker, Advanced Installer, PowerShell Script, prometheus, Graphana, Git, Jira, Trello etc.

### EDUCATION

#### B.Sc. in

##### Information Technology

University of Derby, UK  
Higher Second class, 2016

# Bangladesh Software Solution

## Senior Software Engineer

Dhaka, Bangladesh | March 2021 – July 2022

- Contributed across the full software development lifecycle, from requirements analysis to deployment of scalable applications
- Identified performance bottlenecks, performed root cause analysis, and implemented optimization solutions to improve system efficiency
- Led client meetings for requirement gathering, estimation, and solution design, translating business needs into technical architecture
- Applied design patterns to solve complex design challenges and improve system maintainability and scalability
- Designed MS SQL Server databases and implemented efficient data access using Entity Framework Core and Dapper; led DevOps activities including CI/CD and production releases

*Project: Siderian Cloud (<https://siderian.cloud>)*

## Freelance

### JavaScript Developer

June 2020 – February 2021

- Developed complex Postman test scripts using JavaScript to validate APIs for a sensitive financial application, ensuring accuracy, reliability, and security of transactions.

*Project: Orion Tom (<https://orionadvisortech.com>)*

## Index IA Limited

### Software Engineer

Dhaka, Bangladesh | March 2017 – March 2020

- Core member of the .NET team, delivering high-quality features across multiple projects within defined timelines
- Designed and developed RESTful APIs using ASP.NET Web API
- Designed database schemas for MS SQL Server 2017 and implemented efficient data access using Entity Framework Core and T-SQL
- Conducted technical research and development to solve complex challenges and improve system performance and reliability

*Project: GSP Tracker (<https://epb-exporttracker.gov.bd>),  
ODI HR (<https://odihr.upriver.io>), EPB Stat (Statistics Software).*
